Who are we?

Oasis envisions communities where everyone is included, able to contribute, and supported to reach their full, God given potential.

About Oasis

For nearly 40 years, Oasis has been working nationally and in local neighbourhoods to build stronger, more inclusive communities. We have pioneered work across housing, education, youth provision, health, church, and community services always with a focus on opportunity, participation, and social change.

Today, we operate in 52 neighbourhoods across the UK, partnering with local people to drive initiatives that reflect the strengths, needs, and aspirations of their communities. We believe in the power of friendship, belonging, and cohesion, and we work to overcome the barriers that limit too many families and individuals.

Our work is rooted in local neighbourhoods where we make our values tangible, running schools, housing projects, community hubs, youth services, and family support programmes. Oasis is made up of thousands of people: children and young people, adults, families, volunteers, and staff all working together toward stronger communities.

We are also committed to innovating where existing systems fall short. This includes developing new therapeutic approaches to reduce youth violence, homelessness, human trafficking, and school exclusion.

Our Local Neighbourhood Model

In each neighbourhood, we work through Oasis hubs: integrated community hubs shaped by local people and designed to meet the full breadth of human need. Alongside schools and churches, hubs offer a wide range of support including debt advice, job clubs, football teams, social supermarkets, counselling, youth clubs, community drop ins, and more.

We work in a holistic, joined up way because we know that isolated or fragmented services rarely create lasting change. High quality, trauma informed care and an ambitious education offer underpin our multi disciplinary approach—serving over 60,000 children, young adults, and families.

About Our Academies

High quality education is central to our neighbourhood model. Over the past 19 years, Oasis Community Learning (our multi-academy trust) has grown into one of the largest in the UK, with 56 primary, secondary, and all through academies supporting more than 30,000 children and families. Three quarters of our academies are located in the most socio-economically deprived 25% of UK communities.

When we began, only around 30% of the schools joining us were rated Good or Outstanding by Ofsted; today that figure has risen to 87%. We are narrowing the disadvantage gap, and our disadvantaged students are outperforming their peers nationally.

Our academies combine excellent teaching and learning with character development (through the Oasis 9 Habits programme) and deep community engagement. We know that great schools thrive in great communities, so we align school improvement with community development to tackle the root causes of disadvantage.

Our Culture & Ethos

At Oasis, our culture is shaped through the everyday actions of our people. Grounded in our Ethos and the Oasis 9 Habits, it influences how we lead, how we teach, and how we serve our communities.

We are committed to ensuring that our culture is consistently lived, not just stated, across every part of Oasis. As we move into the next phase of our journey, we will make our culture even more visible, practical, and embedded. The 9 Habits will be central to how we induct, develop, and recognise our staff, and to how we lead our schools. We will continue to close the gap between intention and practice by building meaningful reflection into our systems and celebrating the children and colleagues who bring our culture to life each day.

While Oasis today looks very different from the organisation that began 40 years ago, the values that underpin all our work across housing, youth justice, education, community development, and anti trafficking remain constant. These values continue to guide our growth and strengthen our impact.

Our ethos is founded on a deep belief that every human being is uniquely valuable, equally important, and capable of contributing to the world. We recognise that we all have something to offer, and that we all rely on one another.

Our ethos shapes every aspect of our work. It guides our decisions, our relationships, and our practice across the organisation. At its heart are our five core ethos values.

Our Values

- A passion to include everyone
- A desire to treat people equally, respecting differences
- A commitment to healthy, open relationships
- A deep sense of hope that things can change and be transformed
- A sense of perseverance to keep going for the long haul

We seek team members who not only share our vision but actively champion, model, and embody our Ethos in their work.

The Oasis 9 Habits

Our Ethos is further expressed through the Oasis 9 Habits; character qualities that shape how we live and lead. These habits encourage us to be:

Together, our Ethos and the Oasis 9 Habits underpin our commitment to “*exceptional education at the heart of the community*”.

Our Curriculum: Character, Competence & Community

A Curriculum That Inspires

Our curriculum has been praised by Ofsted as “broad and ambitious.” It offers educators the opportunity to shape national delivery, contribute to innovation, and support a healthy work-life balance through shared resources and collaborative planning.

The Oasis Entitlement

At Oasis our curriculum is the heartbeat of every academy. It’s the foundation of great learning, shaped by years of collaboration with National Lead Practitioners and educational experts. Designed to meet the needs of every student, our curriculum strives for personal, academic, and vocational excellence.

The Three Golden Threads

Our curriculum is built around three core principles:

Character – We believe character development must be intentional. That’s why it’s woven explicitly into our curriculum. We prepare students to become the best version of themselves—today and for their future.

Competence – Every young person deserves the skills, knowledge, and confidence to shape their own life path. Our curriculum equips students to thrive in learning and beyond.

Community – Each Oasis academy is deeply connected in its local Oasis hub. Students are empowered to contribute to their communities, where inclusion, purpose, and potential are celebrated. Regular engagement with community activities helps build a sense of belonging and service.

The Oasis Entitlement

The Oasis Entitlement ensures that every child receives a rich, inclusive, and empowering education; one that prepares them not just for exams, but for life. Every student, in every Oasis academy, benefits from a guaranteed set of enriching experiences designed to broaden horizons and nurture the whole child.
